biTUBE®

**LONG
LIFE LED'S**

**VERY SAFE
12VOLTS**

**OTHER THINGS THE LED LIGHT CAN DO WHEN
THE BUBBLE BUTTON IS HELD DOWN FOR...**

HOLD TO DELAY 24 HR CYCLE

1x Flash	Normal 24hr light cycle will start from this time of day.
2x Flash	Daylight is turned off for 2 hours and then resumes previous cycle (blue LED is not affected by this and will remain on). Ideal for watching movies or when doing maintenance. To resume earlier than 2 hours, press for two flashes.

HOLD TO ADJUST TIMINGS

3x Flash	24 hour standard cycle with 8 hours of daylight.
4x Flash	24 hour cycle with short daylight (only 5 hours) .
5X Flash	24 hour cycle with extended daylight (14 hours).
6x Flash	24 hour permanent daylight with no moonlight.
7x Flash	24 hour permanent moonlight with 8 hours of daylight.
8x Flash	24 hour daylight and moonlight.
9x Flash	30 second demo cycle. To exit, disconnect from power.

If you have any problems while programming, re-set the light by disconnecting from the power.
